http://matrobriva.altervista.org Xref: aioe.org comp.lang.php:26337 Hi to everybody. I have been working for  
about 3 months to a new project: Sharetext. Sharetext is a portal that allows users to share their texts just like  
YouTube does with video. I'd like to find collaborators to expand the code and improve it. The site is written in  
PHP and MySQL and is 100% free software. Whoever has intention to collaborate, may send a brief curriculum  
with his/her programming skills at this address: matrobriva@libero.it It is necessary good knowledge of PHP  
and MySQL. One of the most urgent work is to adapt the class ODT2XHTML, but there is much more to do.  
The portal is located at http://sharetext.altervista.org -- matrobriva <matrobriva@libero.it  
http://matrobriva.altervista.org> free software&GNU/Linux 4ever! ;-) \*\*PER PREVENIRE FURTI DI  
IDENTITÀ, UTILIZZERÒ SEMPRE IL SERVER news.linuxfan.it, DOVE SONO REGISTRATO \*\*\*
